
JOB EMMANUEL

Full-Stack Developer & Computer Science Student at Obafemi Awolowo University

Ile-Ife, Osun State, Nigeria • emmanueljob2009@gmail.com • github.com/Emmanuelkorede • [@jobemmanuel_dev](https://twitter.com/jobemmanuel_dev)

PROFESSIONAL SUMMARY

Full-stack developer and Computer Science student at OAU with 2+ years of hands-on experience building and deploying web applications and SaaS products. Comfortable working across frontend development, backend logic, relational databases, authentication, and responsive interfaces. Focused on learning through building and turning practical ideas into working software.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST APIs, server-side application logic
Database	PostgreSQL, Supabase, Neon, relational data modeling, Row Level Security
Tools & Deployment	Git, GitHub, Vite, Vercel, Cloudinary
Other	Authentication, Progressive Web Apps (PWA), AI integration, responsive design

SELECTED PROJECTS

Ecclesia

Full-Stack Developer Live

- Built a multi-tenant church management SaaS for members, attendance, ministries, events, analytics, and communication.
- Implemented authentication, organization switching, role-based access, and PostgreSQL Row Level Security with Supabase.
- Built and deployed the application using React, TypeScript, Tailwind CSS, Supabase, and PostgreSQL.

Tech: React, TypeScript, Tailwind CSS, Supabase, PostgreSQL

MM CBT (Mustnuel Media CBT)

Full-Stack Developer Live

- Built a CBT platform for Nigerian entrance-exam preparation with multiple exam modes, community features, and an administration dashboard.
- Designed the application around React, Supabase, and PostgreSQL with responsive Tailwind CSS interfaces.
- Implemented core exam and user flows and deployed the application for real-world use.

Tech: React, Tailwind CSS, Supabase, PostgreSQL

LodgeLink

Full-Stack Developer Active Development

- Designing a hyperlocal accommodation platform for OAU students to discover off-campus lodges and connect with agents.
- Working across the product, database, authentication, and interface layers using Next.js, TypeScript, Supabase, PostgreSQL, and Tailwind CSS.
- Keeping the first version focused on practical campus discovery and trust-oriented features.

Tech: Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL

Wishly

Full-Stack Developer Live

- Built a no-signup digital birthday card creator with customizable messages, images, cake selections, and shareable experiences.
- Developed the Next.js/TypeScript interface and integrated Supabase/PostgreSQL for storing card data and supporting expiring content.

Tech: Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL

EDUCATION

Obafemi Awolowo University (OAU)

2025 - Present

B.Sc. Computer Science

Ile-Ife, Osun State, Nigeria

CORE STRENGTHS

Problem solving • Responsive design • Product thinking • Database design • Technical communication • Teamwork • Adaptability

LANGUAGES

English (Fluent) • Yoruba (Native)

INTERESTS

SaaS building • System design • AI integration • Developer tooling • Learning through real projects

AVAILABILITY

Open to internships and software development opportunities.
